

Author Identification Block

Author: Edsger Dijkstra
Student ID: *00000000
E-Mail: edijkstra@uco.edu
CRN 11137, Autumn, 2021
Course: CMSC 5023 – Programming Languages
Project: p04.4
Due: October 27, 2021
Project Account Number: tt000

Scoring Block			
Component	Available	Earned	Explanation
Academic Honesty			A zero (0) is recorded for the entire project if any source has been copied.
Compilation			A zero (0) is recorded for the entire project if the project fails to compile without errors or warnings.
Submission Instructions	3	3	<ul style="list-style-type: none"> • A zero (0) is recorded for this component if the project is not stored in folder <code>~tt/ttxxx/p04.4</code> where <code>ttxxx</code> is the departmental computer account assigned to you in this course. • A zero (0) is recorded for this component if the project script file <code>mkpasm</code> fails to function correctly.
Author Identification	2	2	A zero (0) is recorded for this component if any source file including the makefile, <code>makepasm</code> , does not have a complete author identification block for both team members.
Command Line	5	5	A zero (0) is recorded for this component if command line arguments are not processed according to project specifications.
Output file	10	10	A zero (0) is recorded for this component if the output file is not created or not named according to project specifications.
Execution	30	30	A zero (0) may be recorded for this component if several constants of different types are not stored in their appropriate constant tables.
Total	50	50	

Instructions:

Store all source files, file `makepasm`, and file `mkpasm` in your folder `~tt/ttxxx/p04.4` where `ttxxx` is the departmental computer account assigned to you in this class.
