

Author Identification Block

Author:	Edsger Dijkstra
Student ID:	*00000000
E-Mail:	edijkstra@uco.edu
CRN	11137, Autumn, 2021
Course:	CMSC 5023 – Programming Languages
Project:	p04.6
Due:	November 22, 2021
Project Account Number:	tt000

Scoring Block			
Component	Available	Earned	Explanation
Academic Honesty			A zero (0) is recorded for the entire project if any source has been copied.
Compilation			A zero (0) is recorded for the entire project if the project fails to compile without errors or warnings.
Submission Instructions	3	3	- A zero (0) is recorded for this component if the project is not stored in folder <code>~tt/ttxxx/p04.6</code> where <i>ttxxx</i> is the departmental computer account assigned to you in this course. - A zero (0) is recorded for this component if the project script file <i>mkpasm</i> fails to function correctly.
Author Identification	2	2	A zero (0) is recorded for this component if any source file including the makefile, <i>makepasm</i> , does not have a complete author identification block for both team members.
Command Line	5	5	A zero (0) is recorded for this component if command line arguments are not processed according to project specifications.
Output file	10	10	A zero (0) is recorded for this component if the output file is not created or not named according to project specifications.
Execution	30	30	A zero (0) may be recorded for this component if the binary file, <i>.pex</i> , fails to conform to specifications.
Total	50	50	

Instructions:

Store all source files, file *makepasm*, and file *mkpasm* in your folder `~tt/ttxxx/p04.6` where *ttxxx* is the departmental computer account assigned to you in this class.
